Dear Richard:

Re: Notice of Board Approval, Formal Release of Atlas Minerals Corporation Board Contract, Utah Uranium Mine Sites, M/037/051, San Juan, Grand, and Emery Counties

On June 24, 1992, the Board of Oil, Gas and Mining concurred with a Division recommendation to formally release Atlas Minerals Corporation (Atlas) from its 1983 Board Contract. This contract held Atlas responsible for the maintenance and ultimate reclamation of 21 uranium mine sites in Utah. This Board action effectively releases Atlas from any continued maintenance or reclamation obligations to the Division of Oil, Gas and Mining on these mine site. A copy of the Board Contract is enclosed, along with a copy of the Board memo outlining the Division's release recommendation.

Thank you for your patience and assistance in identifying the status of these 21 sites. We appreciate the continued cooperation Atlas has provided over the years and wish to extend our best wishes to Atlas in its future endeavors.

Sincerely,

D. Wayne Hedberg
